Guide to RESOURCES AND SERVICES in the WARWICK DISTRICT

January 2006

Warwick District Community Resources & Services

Introduction

Service providers based in Warwick have many services available to them, but often they are not well known or not accessible in a consolidated format. This Resource Directory may assist in increasing the awareness of these services and facilitate their access by service providers and users.

Criteria for Inclusion

All identified services and organisations relevant to the health and well being of the Warwick and Districts community are included in this Directory, as well as other services that may be useful for referring clients. As well, those resources not available locally that are located outside the immediate district and able to be accessed by service users are included in this Directory.

Use

All entries are under categories, for example hospitals, support groups, accommodation; some entries are listed under their organisational name, for example Blue Care, Scouts, and Rotary. This Resource Directory is cross-referenced with the Table of Contents and Index, for ease of perusal. This resource Directory is also available on CD (on request), email and hardcopy. This Resource Directory may also be included on the Warwick Shire Council website in 2006.
